

**1.5 to 3 tonne
NEO Series Electric Forklifts
MADE IN INDIA FOR THE WORLD**

**CLEAN ENERGY
SUPERIOR HANDLING
ENHANCED PERFORMANCE
WITH SAFETY FIRST**

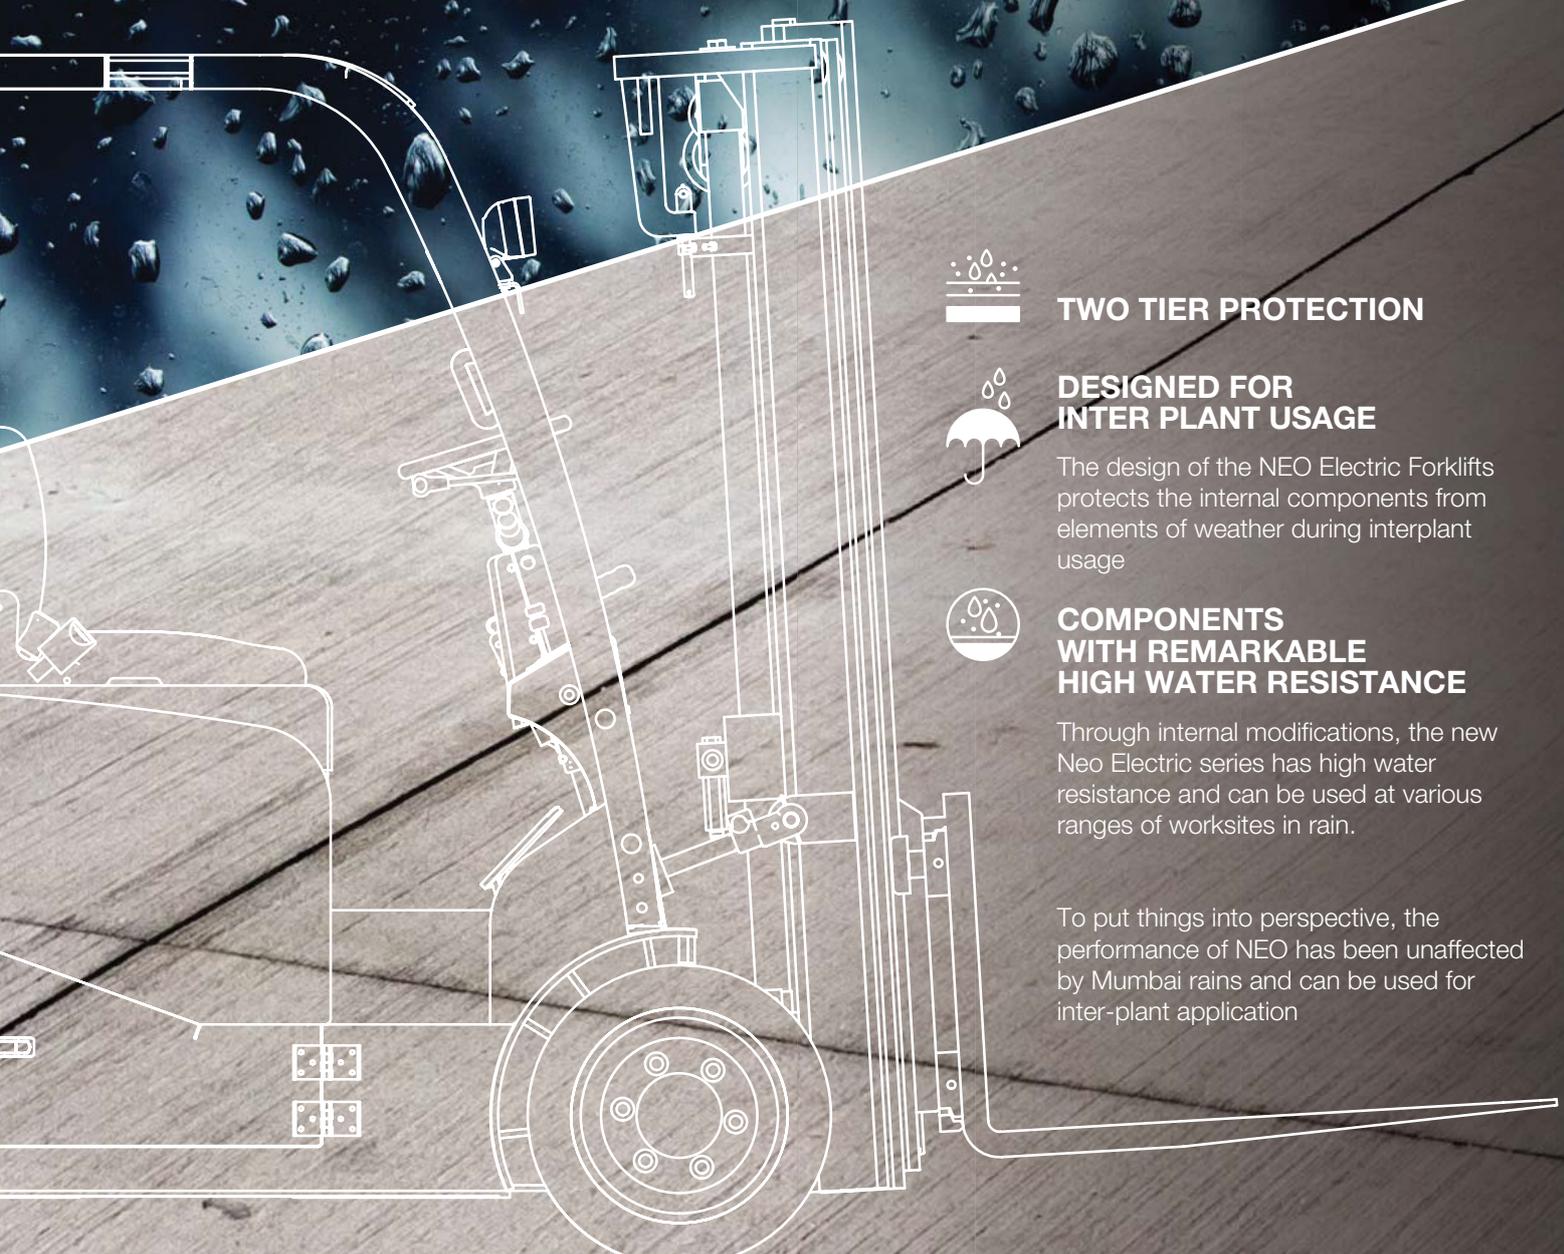

THE NEO ELECTRIC SERIES BY GODREJ

AMPLIFY PRODUCTIVITY AND PROFITABILITY, COME RAIN OR SUNSHINE

No matter the business you're in, whether manufacturing or logistics, automotive or heavy engineering, you need someone dependable to help move and sustain the needle of productivity and profitability, come rain or sunshine. Godrej's Neo Electric Forklift Trucks is the all-weather friend, your business needs.

TWO TIER PROTECTION

DESIGNED FOR INTER PLANT USAGE

The design of the NEO Electric Forklifts protects the internal components from elements of weather during interplant usage

COMPONENTS WITH REMARKABLE HIGH WATER RESISTANCE

Through internal modifications, the new Neo Electric series has high water resistance and can be used at various ranges of worksites in rain.

To put things into perspective, the performance of NEO has been unaffected by Mumbai rains and can be used for inter-plant application

EFFICIENCY, AT ITS BEST

Be more energy efficient, get smoother lift and tilt movements with quieter steering operations powered by indigenously developed AC motor.

GET MORE FROM EVERY CHARGE

Get more run time with every charge cycle with an evolved AC motor.

MOVE MORE, WHILE MOVING LESS

Complex maneuvers and tight spaces are not a problem anymore. The GX Neo, with its AC motor offers better traction, delivering smoother maneuverability over any kind of surface or space.

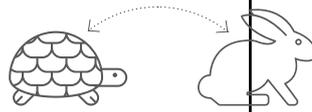

ROLL IN MORE TIME, WITH LESS EFFORT

The NEO Electric battery roll-out system ensures a single operator can change the battery in quick and easy steps yielding a higher uptime.

COUNTER GRAVITY, LIFT MORE

Lift higher with greater stability thanks to the ingeniously designed frame for a lower centre of gravity.

PICK THE MODE OF CHOICE

Application based modes of use help in achieving superior performance in every task. Choose from among Slow, Normal and Fast to get the most from every application.

Slow | Normal | Fast

OPERATOR IS THE KEY

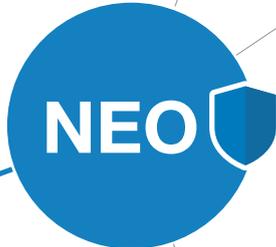

The operator presence system detects if the driver is seated correctly before allowing operations to begin, preventing any unmanned operations.

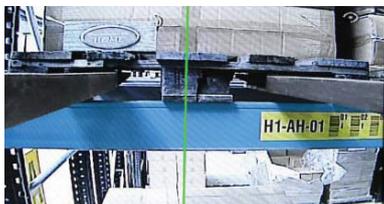

GET ON AND OFF WITH EASE

Quick, safe and easy to get on and off the forklift truck thanks to the low first step, low seat height, more overhead guard clearance and three point stance.

NEO ELECTRIC FORKLIFTS ASSURE YOUR BUSINESS A FULL CIRCLE OF SAFETY

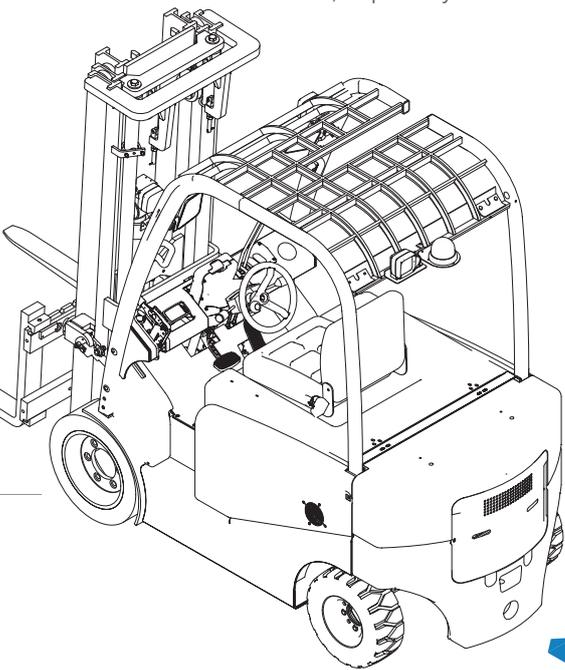

OPTIONAL SAFETY ACCESSORIES

- Blue Caution Light
- Red Halo Light
- Fork and Mast Mounted Cameras
- Fork Mounted Load Indicator
- Rack Height Location Assist
- Biometric Access Control
- Electronic PIN Access

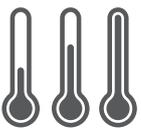

SAFE ON CORNERS

The Neo's Curve Speed Control technology uses sensors to detect turn movements and regulates speed, thereby maintaining stability and providing enhanced operator control, especially at the corners.

BETTER VISIBILITY THROUGH THE MASTS

Excellent visibility helps conduct critical operations with confidence and precision.

STAY COOL

Overheating sensors detect temperature rises beyond the optimal level and halt operations.

LOW POWER, NO LIFT

Lifting function automatically ceases when the battery level is below 20% thereby protecting the battery from a deep discharge, giving longer battery life

NO RUN-AWAYS

Anti-rollback system kicks-in every time the brake pedal is released on an incline, preventing run-aways.

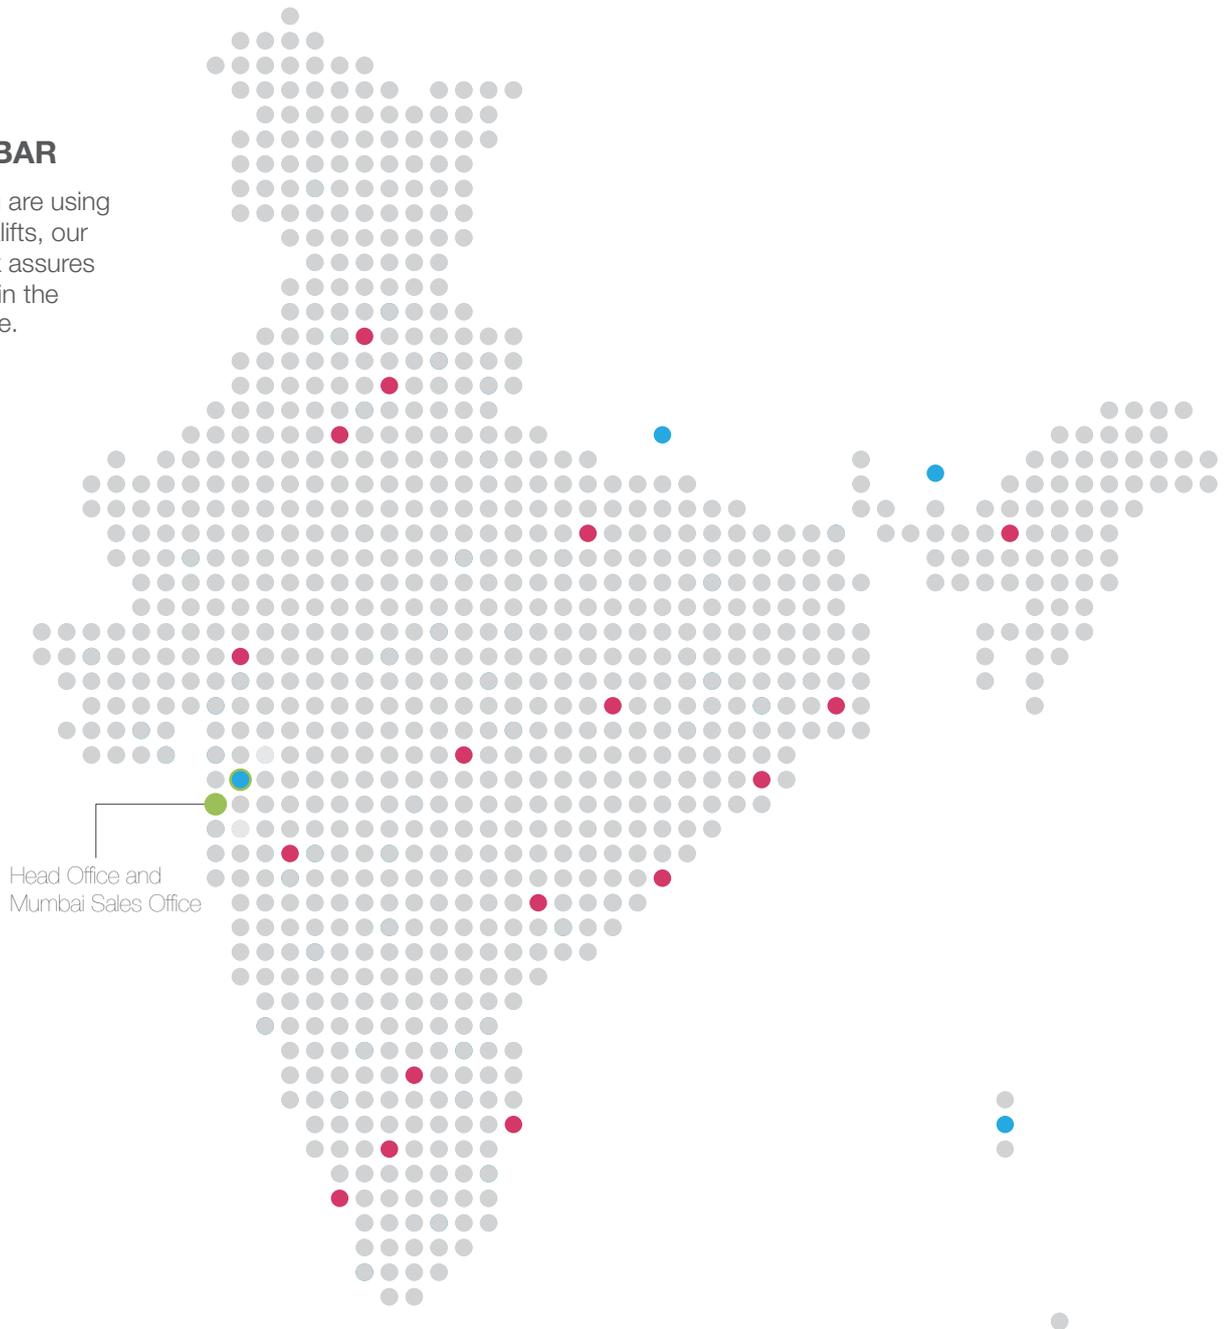

₹ EASY SERVICEABILITY

Continue to reap the benefits of the NEO in the long run. The NEO package is much more than the forklift, its the quality of timely service that makes all the difference. Our service engineers are just a phone call away.

LOCATION NO BAR

No matter where you are using the Neo Electric Forklifts, our wide service network assures you the best service in the shortest possible time.

Head Office and
Mumbai Sales Office

SUPER EASY PREVENTIVE MAINTENANCE

Easy access to sub-assemblies and main aggregates for better serviceability.

- Manufacturing Location
- Branch Office
- Authorized Dealer Location

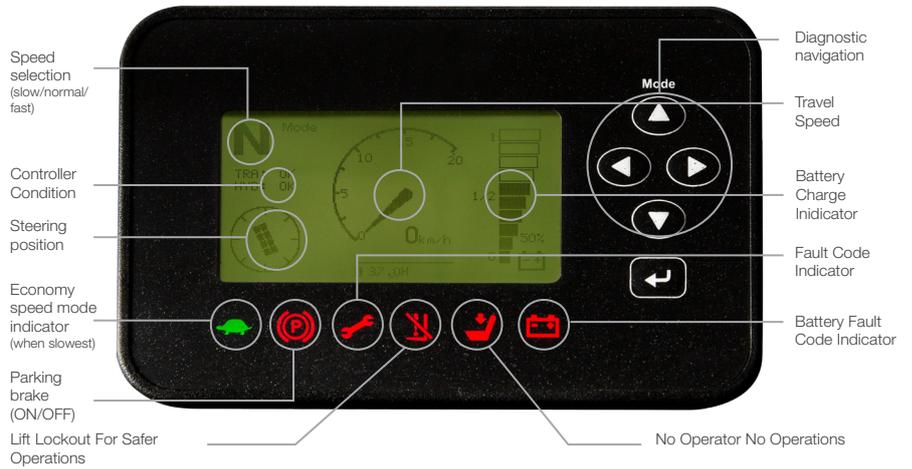

ERGONOMICS AT THE HEART

The Neo goes a long way in providing a comfortable work setting for the operator. It's ergonomic design helps keep stress and fatigue at bay, keeping the driver attentive and your business productive.

INTERACTIVE DISPLAY FOR BETTER JUDGEMENT

LCD Display shares vital information on speed, temperature, movement, battery life and fault codes, assisting in the diagnostics to make informed decisions.

CONTROL AND CONFIDENCE THROUGH OPERATOR COMFORT

COMFORT AND SAFETY GO HAND IN HAND

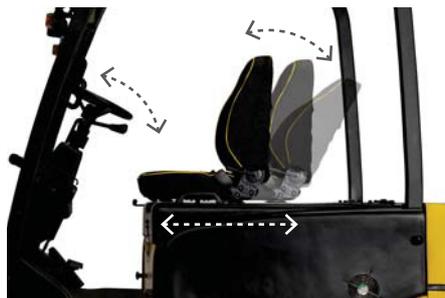

Lower boarding step, 3 point contact and higher overhead clearance gives the operator greater comfort, ultimately leading to more uptime and less accidents.

SAY GOODBYE TO OPERATOR FATIGUE

Adjustable seat and steering column that allows for setting the depth and angle depending on the stature of the operator.

INDUSTRY CLASS LEG ROOM

Ample leg space provide operators with comfortable working space.
